

Soft Diamond Light

Life is far more remarkable than we think!

Soft Diamond Light – created to inspire support for the vision of the Soft Diamond Light and its global initiative.

The book, image and music have all been produced with the aim of simply raising the vibration of the atmosphere whenever they are read, viewed and/or played. Indeed, wherever they simply reside.

The creation of the Soft Diamond Light box set evolved over a long period of time. It eventually came into being as a piece of artwork and a talisman of spiritual power.

The box set is offered as a special limited edition production which includes this book, a CD, booklet and presentation card in an beautifully crafted gift box. The Soft Diamond Light image is the theme and ‘visual mantra’ of the overall package.

The primary purpose of the package is to introduce the vision of Soft Diamond Light and to inspire support for the Soft Diamond Light global initiative: ‘Ending Child Abuse, *Creating great kids!*’. The mission is to see a vision of peace and prosperity becoming a living reality for everyone on this planet.

A very powerful deva or angel is invoked, the vajrasattva (*) wherever the book and music reside. (The deva of Soft Diamond Light.) Its function is to focus and distribute all of the combined energy created by Soft Diamond Light for the maximum and highest benefit of all life on our planet. The image, book and music are infused with the blessings of the deva and an auspicious lineage of spiritual Masters.

A deva is used as an umbrella term for the intelligent forces within nature, referred to in the West as deities, gods or angels. Devas work with both thought and inspiration. One of their primary functions is to weave an inner energetic fabric or blueprint to allow physical form to materialise.

Anyone can choose to cooperate with this energy of Soft Diamond Light to assist in raising the vibration of consciousness within all of life. While the music was not created as a classical virtuoso creation, or a compilation of pulsating rhythms and catchy tunes, its beauty and captivation rest in becoming aligned, attuned and absorbed in the deva of the music.

The music was produced to celebrate the performance of a song written for my spiritual teacher. The CD is effectively one piece of music, based on this song, ‘I know I am’, comprising thirteen moves, the song and a reprise. The more you dive into the music and dance with its rhythm, the more the music will invite you into its arms with its moments of serenity, and fill you with the fullness of its inner power.

The image, book and music are offered as tools for serving our planet during the twenty-first century. They are for your enjoyment, study, contemplation and spiritual awakening.

(*) Vajra (Sanskrit) literally means ‘diamond’ or ‘thunderbolt’. The vajra is a mystical reference to the indestructible qualities and reflective powers of the diamond. It is also said that anyone possessing this diamond thunderbolt is endowed with great spiritual, intellectual and psychic powers. Sattva (Sanskrit) This is defined as the true essence, spiritual essence, reality or true being.

Vision for Soft Diamond Light

How far can we see?

Global Charter for the 21st Century

Bringing a future of peace and prosperity into the present is in our hands. It is a global choice for the twenty-first century.

When greed and hate are ultimately transformed into abundance and love, the highest roles of business and government will merge. Peace and prosperity for all people on this planet will become the primary function of a new planetary, governing body. This will be achieved by an equitable distribution of all the planet's resources.

This new planetary governing body will be created when the highest roles of human beings, parents, mothers and fathers are attained in sufficient numbers on our planet. We will then also see the vision of the Soft Diamond Light and its global initiative come into reality.

The highest role of human beings: To live a safe, secure and successful life and to reach their full creative potential as a spiritual being in a physical body by living in balance with nature. To be great, while making others greater with uninterrupted selfless service. To care for the environment and support all life, especially children, in reaching their full potential: intellectually, emotionally and physically.

The highest role of parents: To create a safe family environment for love and happiness to come into its highest and fullest expression. To give children the best conditions for conception, gestation and birth. To provide a safe, nurturing and supportive atmosphere for their children, which allows them to discover and fulfil their highest role as a human being.

The highest role of mothers: To create the best possible conditions and atmosphere for giving birth to children, on an intellectual, emotional and physical level, prior, during and after the moment of conception. To then provide them with a caring, nurturing, nourishing and supportive environment for discovering the full potential of their spiritual nature through their individual personality.

The highest role for fathers: To be actively involved in supporting the highest role for mothers, and to do everything possible and necessary to honour, respect, support, encourage and inspire children to fulfil their highest purpose and potential as a human being.

The highest purpose of education: To support the highest role of human beings and facilitate the discovery, understanding and unfolding of our innate latent powers as spiritual beings, and how these powers can best serve the highest good of the community. To teach practical life skills for living that are in harmony with the environment, with others and within ourselves, in accordance with the ongoing discovery of the natural laws of the universe.

The highest purpose for the community: To provide all the services, resources and practical requirements necessary to support the highest roles of human beings and particularly parents, and to fulfil the highest purpose of education.

The highest function of government: To support the highest roles of the community and education throughout the world.

The highest function of business: To support the highest function of government on a global scale for the highest good of all life. (There may come a time in the twenty-first century when the distinction between business and government will no longer be needed.)

The primary purpose of the Soft Diamond Light box set is to inspire support for the Soft Diamond Light global initiative: 'Ending Child Abuse, *Creating remarkable kids!*'. The mission is to see a vision of peace and prosperity becoming a living reality for everyone on this planet.

Soft Diamond Light

The Image & Music

A primary motivating force for the creation of this book was to present the image, 'Soft Diamond Light'. It is one of the two essential elements of the book. The other is the music... The image has been designed to serve as a visual talisman of power...

The image is a symbol of love, which is soft and tender, yet still as strong and brilliant as a magnificent diamond.

Image for Soft Diamond Light

On 9 April 1992, during a meditation session at the ashram one evening, I received a very powerful image. With my inner eye I watched as a diamond emerged from a lotus flower and radiated with a scintillating explosion of light. The image seemed to rise up inside me until it emerged from the top of my head. This vision was accompanied by an extraordinary experience of expansiveness that had a powerful impact on my state of being. It generated an overwhelming feeling of abundance, and self-worth seemed to emanate from within and envelop the totality of my being. The image now seems to embody and hold the essence and power of my experience.

Afterwards, I was left with a wonderful feeling of exhilaration and a profound and very tangible experience of the essence of greatness. The image seemed to instil a sense of fearlessness and limitlessness into my very being.

That meditation inspired the creation of the specific image displayed throughout this book. It is designed like a visual mantra.

Only love matters: Music for Soft Diamond Light

I wrote the song 'I know I am' on 4 January 1993 for my meditation Master. This became my 'calling song' from my heart for my Master leading up to her visit to the Sydney ashram on my birthday in 1997. I used to sing it over and over again on my own with a fervent devotion and longing, often bringing myself to ecstatic tears of joy. (The song also became the basis for the creation of the music for 'Soft Diamond Light'.)

The first recording of the song was created in 1997 as a gift for her. The CD was subsequently produced over 2006 to 2008 to honour my spiritual awakening. All of the musical pieces were based on the one melody of the song. The entire CD is essentially one piece of music, or in some ways, like a story. It was created to celebrate my experience of performing the song in person to my spiritual teacher on 25 March 1997 and again, at her request, on my birthday on 1 April 1997. (This is described in greater detail in the previous section.) These performances for my teacher were the most memorable experience of my 'musical career', albeit one I have never really pursued during this lifetime as a mainstream focus.

The music, originating as a multitude of independent, individual instrumental tracks, recorded by different musicians over a number of months, slowly came together to reveal one coherent overall piece of music. It ended up as thirteen 'moves' 1, a song and a reprise, coming together as one piece of music based on one melody while still maintaining their individual 'note' in the overall CD. Some of the moves have been divided into subsections and given subtitles. (See Appendix, p259). The music and the titles were structured like the chapters of a story to provide a pathway, which emerges as you listen to the CD until you reach the conclusion of the story: the song, 'I know I am' then ends with a short reprise.

Only love matters: music for Soft Diamond Light

*Essentially, one piece of music based on the song,
'I know I am', comprising 13 moves, the song and a reprise.*

move 1 Sounds like the start of something different

One Word says it all
When lost for words you often find their meaning
Speaking to God can leave you speechless
Becoming everything you ever imagined possible

move 2 A short interlude

move 3 Only love matters

Running into time and out of space
Finding the time before it passes by
Travelling at the speed of light is brilliant
Listening to your heart is hard to beat
When you listen closely it sounds like you're there

move 4 Time is a point in space that never ends

A question is an answer waiting to be asked
Being everywhere at the same time is just a state of being
Timing is everything when travelling to eternity
Time will always give you a second chance
The future is only a matter of time, so only time will tell
Arriving before you leave saves a lot of time
The present is just the past meeting the future in a lower dimensional space

move 5 Space is the manifestation of time

A journey to inner space is just a breath away
Before losing your mind, be sure to know where to find it
The power of music is in the silent space between the notes
Taking a journey to inside your heart is closer than you think
Drifting slowly out of sight into infinite realms of inner space
Thinking takes time, knowing instantaneously makes sense
Standing still is just a point of reference

move 6 Time is the manifestation of space

Setting yourself free in one piece
Setting yourself free, piece by piece
Setting yourself free by returning to earth
Returning to earth, piece by piece
Returning to earth in one piece

move 7 A place where nothing ever happens all the time

move 8 Floating on higher ground with no strings attached

move 9 Floating on sacred ground with two good friends

move 10 Stillness

move 11 Still

move 12 Still more

move 13 Silence is the source of sound

song I know I am

reprise Sounds like the end because only love matters
