SOFT DIAMOND LIGHT BOX SET - A TALISMAN OF SPIRITUAL POWER

An intimate and first-person account of exploring the metaphysical universe to find the divine within, and manifesting the full potential of our spiritual selves in reality.

30 March, 2011: Specifically created as a talisman of spiritual power, the Soft Diamond Light box set - by author and composer Anatole Petrovich Kononewsky - contains a full-colour 312 page hardcover book - 'Soft Diamond Light - Only Love Matters', accompanied by a 15-track sacred music CD 'Only Love Matters: Music for Soft Diamond Light' with a 16-page booklet.

Representing - and intimately connected to - Anatole's personal spiritual journey over the last 45 years, the Soft Diamond Light box set (www.softdiamondlight.com) has been designed to act as a catalyst to return to the serenity and stillness of the inner true Self.

Inspired by the innate, intuitive impulse which lies within us, Soft Diamond Light is a call to manifest the full creative potential and personal power available to us all in the reality of our own lives. The objective was to design and create a heartfelt, artwork production.

"The concept for the book and sacred music was initiated more than 10 years ago, inspired by a profoundly moving meditation experience I had while pursuing a disciplined schedule of spiritual practices in a Sydney-based ashram," explains Anatole Petrovich Kononewsky, author and composer of Soft Diamond Light.

The highly spiritually-charged music for Soft Diamond Light 'Only love matters' is essentially based on one melody - from a song originally composed by Anatole for his spiritual guru - and comprises thirteen moves, one song and a reprise of rich healing energy.

"Conceived as a tapestry of love and a celebration of spiritual exploration, the final manifestation of the combined text and music of the Soft Diamond Light box set represents the culmination of an incredible and moving personal journey."

Founder and Executive Chairman of Australia's Quantum Thinking Institute - which works with enlightened corporate leaders, executives and entrepreneurs across the world - Anatole Petrovich Kononewsky has created the Soft Diamond Light box set with a particular creative vision, aimed at enhancing the higher consciousness of everyone who experiences the mystical essence embedded within its images, text and music.

"The Soft Diamond Light box set itself has been specifically created to be a talisman of power, potent with energy even while unopen. It has been imbued with a conscious invocation of love, inspiration and excellence during the entire evolutionary process of its production," says Kononewsky.

Each Soft Diamond Light box set is placed in a meditation room, to soak up the sacred vibes of powerful ancient mantras as they are chanted in the spiritually charged atmosphere. Every individual box set has thus received the blessings of a lineage of spiritual masters.

The Soft Diamond Light box set is inwardly overseen by the powerful radiance of energy emanating from the Vajrasattva, the bodhisattva of purification, representing the purity of awareness. It is the guiding devic energy of Soft Diamond Light.

"The Vajrasattva oversees the consciousness energy that lives between the words on the pages, as well as the notes and pauses between the sacred music of Soft Diamond Light," adds Kononewsky,

"This particular statuette has been with me throughout the journey of Soft Diamond Light - in fact, Vajra is actually Sanskrit for 'diamond' and Sattva means the true spiritual essence and reality of being, so it has essentially acted as the spiritual guardian and muse of the box set's energy since its manifestation into being."

Reknowned Australian author, Margaret Gee, says: "...a very special book, just reading it is like meditation...utterly fascinating and makes for a compelling read. The Soft Diamond Light creation is a marvel – it positively glitters with light and wisdom and compassion. It's one of the most beautiful book incarnations imaginable."

Maggie Hamilton, author and publisher at Allen & Unwin's 'Inspired Living' division states: "Some people build cathedrals or write poetry or paint to honour the light – (Anatole) has created for us a sacred object of the highest production values to celebrate the divine."

With a vision for ultimately contributing to uplifting the consciousness of everyone on the planet, Anatole fervently hopes that the manifestation of the Soft Diamond Light box set is merely the first tangible step towards achieving his ultimate ambition of the Soft Diamond Light global initiative - based on creating remarkable futures for our children.

The Soft Diamond Light box set is a timeless piece created by Anatole Petrovich Kononewsky and retails for AUD\$187.00. This includes a 312 page full-colour hardcover book including Meditations and Insights with a 15-track sacred music CD and 16-page booklet, presented in an elegant, customised and gift-wrapped box.

It is available online through www.kononewsky.com or through the Adyar Bookstore in Sydney (www.adyar.com.au). The box set is also available for purchase through Living Energies bookshops in Bondi Junction and Parramatta Westfield (www.livingenergies.com.au).

About Anatole Petrovich Kononewsky

Ideas entrepreneur and philanthropist with over 35 years experience in senior management roles, Anatole Petrovich Kononewsky is the Founder and Executive Chairman of Australia's Quantum Thinking Institute - as well as being a published writer, composer and filmmaker.

While completing a Science Degree at the University of New South Wales and working part-time at the Computing Services Unit in his late teens he became interested in metaphysics and principles governing nature. This formally started his spiritual journey and exploration over the next 45 years into the vast practical applications of these principles in our daily lives.

Anatole has been involved in humanitarian, and environmental projects since the early 1970's, and his philanthropic qualities have continually motivated him throughout his career. He was co-founder and Chairman of the Homeland Foundation in 1977 - at one time, a sister community to the well-known Findhorn Community in Scotland, founded by Peter & Eileen Caddy - which offered educational programs for living in harmony with the environment and the Self.

Recently, he volunteered his services for more than six years as Director of PRASAD Australia Limited, a not-for-profit organisation supporting health and education programs in India, and almost five years as Founder & Chairman of the youth-focused 'Before it's Too Late Trust' - working with acclaimed authors and speakers such as Robert Kiyosaki and Max Walker.

As a writer and filmmaker, Anatole produced various documentaries in the early 1990s including "Our Children's Future is in our Hands" and a video documentary with international singer and environmentalist John Denver, based on the work of Dr R.Buckminster Fuller, which became a vehicle for launching a project for global cooperation by the Global Energy Network Institute.

He started his music career during the 1960's while still at school, playing keyboards in the successful highschool rock'n'roll band 'Sebastian Hardie', with well-known Australian singer and performer Jon English, and also performed in the backing group for legendary singer and Australia's first King of rock'n'roll, Johnny O'Keefe. Since then, Anatole has composed, performed and directed a number of original musical productions, classical compositions and songs.

Anatole currently sits as a Director for Global Valve Technology Limited, which he founded in 1999, and has played an instrumental role in initiating, developing and managing a global patent portfolio. He was responsible for the strategic direction and development of V-ProTour Pty Ltd as Executive Chairman in its early stages and is currently a director of the company. He is also Managing Director of Earthsupport Technologies Pty Ltd, which has specialized in the incubation and development of innovative startup businesses to commercialisation over the last 13 years.

Pursuing a lifelong study of spiritual discipline and practices, Anatole has just completed and published a major life work - the Soft Diamond Light box set - which includes his new book and sacred music CD.

About the Quantum Thinking Institute

The Quantum Thinking Institute focuses on providing a curriculum of educational, training and consulting services in the area of conscious business and peak professional performance. It explores how we manifest extraordinary results in our lives from an inspired intuitive intelligence.

The Institute is based on more than 35 years of study, contemplation and meditation, exploring spiritual reality and scientific intelligence. Anatole has distilled all of this understanding into a revolutionary, remarkable and profound view of how life works and manifests. He has applied these principles in building multi-million dollar business and implementing major projects throughout his life.

As Founder and Executive Chairman of the Quantum Thinking Institute, Anatole designs programs and thought-leadership and is incredibly focused on sharing his understanding of how to awaken the innate, limitless potential within the individual and the organisation to manifest excellence.
