Universal Manifestation Principle: *The inner science of creation!*

The Universal Manifestation Principle can be demonstrated and observed throughout the physical universe as the general principle for the initiation of a causal, higher super-physical dimensional vibratory state, expressing and moving through the lower three-dimensional vibratory state of the physical universe. In essence, it is how everything and everyone manifests in the physical universe.

Comparison of Human Lifetime & Star Lifetime | Stars & Humans share similar phases in their lives

The dynamics of this principle: **Birth/Entry | Growth/Change | Death/Exit** can be elegantly and simply explained by the above Cone video. The Universal Manifestation Principle holds true for all of creation.

Love vs. Fear: *Where are you coming from?*

This presentation explores the difference about creating ideas inspired by an *Internal Inspired Impulse* (coming from love) versus an *External Reactive Impulse* (coming from fear)?

Explore the two fundamental factors which drive all relationships!

The only real relationship you have is with your higher Self.

All emotions are either love or fear based.

World Mother & the Miracle of Birth: an inner superphysical view

Specific devas are the representatives of the Planetary World Mother in the building of the various superphysical and physical vehicles in preparation of the birth of the Soul. The important part which the devas play in the building of the subtle and physical bodies has been revealed through actual superphysical, clairvoyant studies of the prenatal processes of incarnation. (See attached.)

NOTE: This presentation is also closely connected to the vision of Soft Diamond Light.

A primary key focus and area of interest for me is the importance of the highest conscious care for children, starting from conception, through gestation and then their entire life, especially with a focus on the conditions of how they are nurtured, raised and educated - *with the true spirit of the meaning of education, being to draw out their full potential.*

My primary practical projects in this area have been the documentary, "[Our Children's Future, in our hands](#)" and initiative [Before it's Too Late](#) the Vision of Soft Diamond Light for Ending child abuse and Creating remarkable kids.

This is part of the current **Hearts Beat STRONG™** initiative inspired by the song, Heart of Australia.

Seeing the invisible!

Going beyond what you thought was possible.

Presented by Anatole Kononewsky

When the mind and/or matter becomes innately still, extraordinary powers are naturally & spontaneously released.

"...discover the existence of a magnificent and mysterious metaphysical structure of endless worlds within worlds. We will come to the humbling and staggering realisation that the physical world is, in fact, the 'side-effect' and the material manifestation of these inner worlds. We will discover that this manifestation is based on elaborate and sophisticated universal principles...." Soft Diamond Light by Anatole Petrovich Kononewsky.

Experience of Soft Diamond Light

A presentation on the Soft Diamond Light artwork production

Soft Diamond Light radiates stillness and has been designed to serve as a visual talisman of power and catalyst for spiritual awakening. It has the power to uplift and inspire a greater capacity for love, joy and selfless service in this world. This experience of stillness within the image was the motivating force for the creation of the book, 'Soft Diamond Light, Only love matters'. It has been used as a 'visual mantra' throughout the book. The image is empowered by the deva of the book and music.

It has been designed to serve as a visual talisman of power and a catalyst for spiritual awakening. It has the power to call forth your higher Self, to uplift and inspire a greater capacity for love, happiness and selfless service in this world. The image contributes to the raising of the vibration of this planet, by invoking the vibration of our inner higher Self. The image is a symbol of love, which is soft and tender, yet still as strong and brilliant as a magnificent diamond.

Only love matters: Meditation & Insights

"The Meditations and Insights explore the technical, methodical and metaphysical principles that allow our universe to function and come into physical manifestation. They are a catalyst for acquiring inner knowledge from your own innate wisdom. They can assist you in finding a possible new direction, fresh inspiration or understanding regarding your immediate questions or circumstances. The Meditations and Insights are chosen from my contemplations and writings over the last forty years. They can be selected by opening up to any page spontaneously and holding a strong intention in your heart for inner guidance."

Book: Soft Diamond Light, Only love matters by Anatole Petrovich Kononewsky

Soft Diamond Light Image

"On 9 April 1992, during a meditation session at the ashram one evening, I received a very powerful image. With my inner eye I watched as a diamond emerged from a lotus flower and radiated with a scintillating explosion of light. The image seemed to rise up inside me until it emerged from the top of my head. This vision was accompanied by an extraordinary experience of expansiveness that had a powerful impact on my state of being. It generated an overwhelming feeling of abundance, and self-worth seemed to emanate from within and envelop the totality of my being. The image now seems to embody and hold the essence and power of my experience."

*Maximising global profits by generating, maintaining
& optimising ideal market conditions!*

This presentation reveals the astounding dynamics of why some toxic and malignant areas of global business do not change and how we help change to occur by understanding the dynamics and principles of change -- then changing how money works to start turning the world around.

Imagine you lived in another part of our galaxy and were told that the people on planet Earth allow 4.9 million of their children under five to die an agonizing, horrible death every year from preventable causes. ("In 2022, 4.9 million children died before age five.", [UNICEF](#))

What would you think of the humanity of such a planet?

How would you explain people choosing to use a substance, clearly labelled it will "KILL" them?

And as a result, tobacco use causes more than 7 million deaths per year Worldwide.¹ If the pattern of smoking all over the globe doesn't change, more than 8 million people a year will die from diseases related to tobacco use by 2030.²

What would you think of their leaders allowing profit to be made from this?

The major [global problems of the world](#) can be [easily funded](#) if humanity wanted to....
